HAVE THE MISSION BOARDS A RIGHT TO ENTER THE REAL ESTATE FIELD?

A STRONG LETTER FROM A PRESBYTERIAN MINISTER ON THE PROPOSED TRANSFER

OF THE LENOX PROPERTY. is highly probable that the question of the sale the Lenox property, over which so much dis-ussion has arisen of late among Presbyterians, aroused, and it is possible that the strenuous oppo-sition manifested will bring to bear influence strong which she says that several weeks before the statement of the boards was given out a letter from her protesting against the sale was read before one of the boards, friends of the Lenox family are surprised that officers of the boards should be quoted as saying that they had not "even disregarded an expressed wish of a single party interested."

A letter from the Rev. Dr. Gosman to Miss Rachal

as saying that they had not "even disregarded an expressed wine of a sungle party interested."

A letter from the Rev. Dr. Gosman to Miss Rachel L. Rennedy, upon which Miss Kennedy laid much stress, as showing the options of a prominent Presbyterian rainfairer, was unintentionally omitted from the interview with Miss Kennedy published in yesterday? Tribune. Here is the efter:

"I saw in The Tribune yesterday some notice in the consequent so say that my judgment is decidedly against any such transfer? First, because I think the present location is in every way edigible and convenient, and was conveyed to the boards and convenient, and was conveyed to the boards under the implied condition that it should be devoted to its present uses. Then, I cannot free my-self from the thought that the boards have no call to become a building corporation, and to its function is in the boards have no call to become a building corporation, and to its function is the boards are the utter imadiplatability of the property of their present needs and that more space is required, fogenesis of the change contend to reasons that may be regarded as emanating from sentiment.
